TERMS OF SALE

Prices printed in this 1941 Wholesale List cancel all previous quotations and subject to change without notice

PRICES: 2% ten days. Net 60 days. F.O.B. East Rutherford, N. J. No other discount unless specifically arranged.

PACKING AND BOXING CHARGES additional, billed at actual cost. Packing boxes and containers are not returnable for credit.

DORMANT ROSES (Except Standard Roses) AND PERENNIALS are packed free when cash accompanies order. Customer pays transportation charges.

QUANTITY RATES:

5 plants of one variety at	10 rate
25 plants of one variety at	100 rate
250 plants of one variety at	1000 rate

We do not supply less than 5 plants of a kind, excepting where stock is priced at each rate.

SHIPPING FACILITIES. Direct freight shipments from Nursery are routed via Erie Railroad. Small shipments are sent Express or Parcel Post. We deliver to other railroad terminals, motor express depots and boat lines in New York City.

TRUCK DELIVERY. Assures quicker arrival. Saves packing and boxing charges. Long-distance deliveries priced at actual cost.

We give no warranty, expressed or implied, nor do we guarantee plants to live. We will replace only such material as proved untrue to name. At no time will we be responsible for more than the original purchase price.

A carrier's receipt releases us from any responsibility. Claims for damage should be filed with carrier's agent at delivery point.

*A charge will be made for digging items
Balled and Burlapped where not so listed*

LAMBERTUS C. BOBBINK

The head of the house of Bobbink & Atkins

BOBBINK & ATKINS have been, for many years, headquarters for rare plants, and the best of standard planting material, so why not come to headquarters and save time, worry, and money?

Here at East Rutherford is probably the world's most complete Commercial Collection of Roses; the best of European and Indica Azaleas, and our own Rutherfordiana Azaleas. Our perennials are planted in every section of the country. In addition, we have an unrivaled collection of trees, shrubs, Hybrid Rhododendrons, Hardy and Deciduous Azaleas, and evergreens. Yews and other evergreens grown in upright form for hedges are some of Bobbink & Atkins' specialties.

BOBBINK & ATKINS

CONTENTS

NURSERY SECTION	2 to 31
ROSE SECTION	32 to 36
PERENNIAL SECTION	37 to 51
GREENHOUSE SECTION	52 to 56

Nursery Section

Our extensive nurseries of 500 acres are located along the Valley Road in the Richfield section of Clifton, New Jersey. The fertile, loamy soil in that locality is well adapted for the growing of high-grade nursery stock, produces an excellent root system, and stock lifts with a fine ball of earth.

You will find large sections devoted to splendid evergreens, including Yews, Hemlocks, Junipers and Spruces; acres of named hardy Hybrid Rhododendrons, Pieris, Japanese Holly, evergreen and deciduous Azaleas, etc.

Certain farms are solely devoted to the growing of French hybrid and Species Lilacs, Flowering Japanese Cherries, Weeping Japanese Flowering Cherries, Magnolias, Dogwoods and other deciduous flowering trees and shrubs.

Excellent large blocks of shade trees are to be seen, of which the Lindens and Ginkgos are unusually good, and splendid stock of American and European Beeches for use either as specimens or for hedge purposes.

Evergreens, Broad-Leaved Evergreens, Deciduous Trees, Shrubs and Vines

Prices and sizes in this Price-List apply to the average grade of plants as they stand in our nursery rows. Extra-heavy or shapely plants selected at the Nursery will be quoted at special prices.

Named Hybrid Rhododendrons

Our Named Hybrid Rhododendrons are carefully grown under ideal conditions. Frequently transplanted, assuring fine, fibrous root systems. This list includes a complete selection of colors. You will be pleased with this stock.

- (A) designates very high growth (C) designates medium growth
 (B) designates high growth (D) designates medium low growth
 (E) designates low or dwarf growth

A Variety

Album elegans. (A) Light blush, changing to white.
 1½ to 2 ft. 4 to 4½-ft. specimen

B, C and D Varieties

Amphion. (C) White center with wide margins of warm pink.
 1½ to 2 ft.

Catawbiense album. (C) White.
 1½ to 2 ft. 2 to 2½ ft. 2½ to 3 ft.

Charles Bagley. (B) Cherry-red.
 1½ to 2 ft.

Dr. H. C. Dresselhuys. (B) Aniline-red.
 1½ to 2 ft. 2 to 2½ ft. 2½ to 3 ft.

E. S. Rand. (C) Rich scarlet.
 1½ to 2 ft. 2 to 2½ ft.

Everestianum. (D) Rosy lilac.
 1½ to 2 ft. 3 to 3½-ft. specimen

Ignatius Sargent. (C) Rose-scarlet.
 1½ to 2 ft.

Lady Grey Egerton. (B) Silvery blush.
 1½ to 2 ft. 2 to 2½ ft.

Lee's Dark Purple. (D) Dark purple.
 1½ to 2 ft.

Mrs. C. S. Sargent. (C) Bright pink with yellow eye
 1½ to 2 ft. 2 to 2½ ft.

Old Port. (D) Rich plum-color.
 1½ to 2 ft. 2 to 2½ ft.

Parson's Gloriosa. (B) Soft pink.
 3 to 3½-ft. specimen.

Purpureum elegans. (C) Fine purple.
 1½ to 2 ft.

Purpureum grandiflorum. (B) Purple.
 1½ to 2 ft. 2 to 2½ ft.

Roseum elegans. (C) Good rose.
 2½ to 3-ft. specimen 3 to 3½-ft. specimen.

Hedge of *Taxus cuspidata capitata*

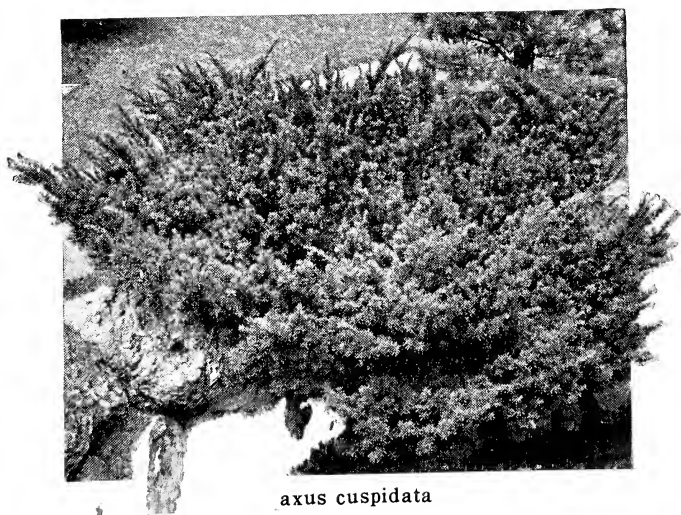

TAXUS CUSPIDATA CAPITATA

The upright Japanese Yew develops into beautiful specimens and is the very best evergreen for a dark green hedge. A Yew hedge is easy to keep trimmed to height and width and retains its rich green color during winter. Bobbink & Atkins have a splendid stock of this Yew.

TSUGA CANADENSIS

As a specimen the Canadian Hemlock is one of the handsomest of lawn trees, both winter and summer. A Hemlock hedge is a thing of beauty and may be kept low or allowed to develop into a tall windbreak. We have all sizes of selected plants.

Wisteria

The following are all grafted stock scions having been taken from old blooming plants. They are far superior to plants grown from seeds or suckers which take years to bloom.

Wisteria brachybotrys.	<i>Silky Wisteria</i>
A short-clustered, blue Japanese Wisteria.	
brachybotrys alba.	<i>White Silky Wisteria</i>
A short-clustered, white Japanese Wisteria with silky leaflets.	
multijuga (floribunda macrobotrys).	<i>Long-clustered Wisteria</i>
35 to 50 ft. A rare species with purplish or lilac flowers with immense long clusters.	
multijuga alba (floribunda alba).	<i>White Long-clustered Wisteria</i>
35 to 50 ft. Large white clusters of flowers.	
multijuga longissima (floribunda longissima).	<i>Extra-Long-clustered Wisteria</i>
Similar to Multijuga but its immense flowers are even longer.	
multijuga rosea (floribunda rosea).	<i>Pink-clustered Wisteria</i>
A variety with pink flowers.	
sinensis. 35 to 50 ft.	<i>Chinese Wisteria</i>
A very strong grower, climbing high and twining tightly. It has pale green foliage and blooms early in summer. Flowers sky-blue in long, pendulous clusters.	
sinensis alba. 35 to 50 ft.	<i>White Chinese Wisteria</i>
Similar to the preceding in growth, but with white flowers.	
sinensis rosea. 35 to 50 ft.	<i>Pink Chinese Wisteria</i>
A variety with pink flowers.	
sinensis violacea plena.	<i>Double Blue Chinese Wisteria</i>
A magnificent blue Wisteria. Lovely long clusters of large, double flowers.	

All Wisterias, strong, 4-yr. pot-grown plants, \$1.65 each, \$13.50 for 10

ZANTHORHIZA apiifolia. 2 to 3 ft.		<i>Yellowroot</i>

Hardy Chrysanthemums

FOUR EXTRA-HARDY GARDEN "MUMS"

Originated by U. S. Bureau of Plant Industry. These varieties have been successfully wintered in North Dakota.

Pocatello. 26 in. Early July to frost. Large, double, pure white flowers.

Algonquin. 28 in. August 1 to frost. Large, double, golden yellow flowers.

Laramie. 32 in. August 1 to frost. Single, orchid-pink bloom about 3 inches in diameter.

Manantico. 24 in. August 1 to frost. Single; magenta-red.

Each of the above varieties, 2¼-in. pots, \$1.50 for 10, \$12 per 100

Two Hardy Pompon Chrysanthemums

Originated in New Hampshire and wintered outdoors there without protection.

Treasure Trove. Double, clear yellow pompon blooms from mid-September on.

Orange Glow. Brilliant burnt-orange blooms from late September on.

Above varieties, 2¼-in. pots, \$2 for 10, \$17.50 per 100

Chrysanthemums of Recent Introduction of Special Merit

ASTRID. Hybrid of *C. arcticum*. Single, daisy-like flowers 3 inches across, shell-pink, tinged with old-rose, bright yellow center. One of the best and hardiest of the hardy varieties.....

Per 10 Per 100

\$1 20 \$10 00

AUTUMN LIGHTS. A very hardy early-flowering *C. arcticum* hybrid. Large; semi-double; coppery bronze. Unusual hardiness and compact, tidy growth. Height about 18 inches. From 2¼-in. pots

2 00 17 50

CLARA CURTIS. Beautiful dwarf, single, clear shell-pink variety, either for cutting, for the rockery, or for display at the front of the perennial border. The plants form symmetrical little bushes about 8 inches high. In late August, and continuing until frost, the single flowers, about 1½ inches across, appear on 8-inch stems above the plant, which grows into a compact little bush about 15 inches in diameter. Pot-grown plants ready in May

2 00 15 00

Large-flowering Chrysanthemums

Abbreviations: E., early; M., medium; L., late. 1, tall; 2, medium; 3, low

	Per 10	Per 100
Aglow. M 2. Large; double; golden orange.	\$1 00	\$8 00
Aladdin. M 1. Very early; double; bronze.	1 00	8 00
Bronze Cushion. E 3. Bronze variety of Pink Cushion.	1 00	8 00
Caliph. M 1. Double Korean. Rich velvety crimson.	1 50	12 00
Cydonia. M 1. Brilliant orange-mahogany.	1 00	8 00
Golden Charm. E 1. Large; golden yellow. Frost-resistant.	1 00	8 00
Granny Scovill. M 2. Double blooms of a warm coral-bronze.	1 00	8 00
Indian Summer. L 2. Double Korean. Orange and bronze; fully double. Frost-resistant.	1 00	8 00
King Midas. E 2. Double Korean. Soft yellow with bronze shadings.	1 00	8 00
Lavender Lady. M 1. True lavender. 2½ ft. Early Oct.	1 80	15 00
Mandarin. M 2. Double Korean. Coral, salmon, copper, and bronzy gold blended. 2 ft. Oct. 10.	1 50	12 00
Mrs. Sam F. Rotan. M 2. Huge; double yellow with buff tints.	1 00	8 00
Murillo. M 2. Old-rose. Probably the best and most reliable pink.	1 00	8 00
Oconto. M 1. The largest pure white. Very hardy.	1 00	8 00
October Girl. E 2. Large; deep pink.	1 00	8 00
Pale Moon. M 1. Sulphur-yellow. 2 ft. Early Oct.	1 80	15 00
Pink Cushion (Amelia Azaleamum). E 3. Blooms from early Sept. to frost. Pink flowers.	1 00	8 00
Pink Spoon. Dainty single flowers of a light rose or shell-pink. The petals are tubular for most of their length, flattening out near the tips so that each petal really assumes the shape of a miniature spoon.	2 00	15 00
Queen Cushion. E 3. White variety of Pink Cushion.	1 00	8 00
Rapture. E 1. Orange-yellow, suffused with cream and bronze-red.	1 00	8 00
Sequoia. M 1. Large, well-shaped flowers of mellow amber.	1 00	8 00
Silver Tips. E 2. Bright rosy carmine with the tips and reverse of the petals silvery white.	1 00	8 00
Symphony. M 1. Double Korean. Mauve-rose overcast with soft coppery rose.	1 50	12 00
Tasiva. E 3. Pure white. Low and bushy. Aug.	1 00	8 00
The Chief. E 2. Bright scarlet flowers with a golden reverse.	1 00	8 00
The Moor. E 2. Double Korean. Amaranth-purple or port-wine-red—a unique color. Frost-resistant.	1 00	8 00
Tints of Gold. M 2. Golden yellow.	1 00	8 00
White Spoon. This variety also resembles Pink Spoon, and, like Yellow Spoon, is more double.	2 00	15 00
Yellow Spoon. Similar to Pink Spoon but is more double. This, however, does not in any way detract from the grace and beauty of the plant and flowers.	2 00	15 00

Pompon Chrysanthemums

Early Bronze. E 3. Bronze-yellow. Late August on. Dwarf and compact.	1 00	8 00
Jules Lagravere. M 2. Deep crimson. Late.	1 00	8 00
Lillian Doty. M 1. Pale old-rose of true Pompon type.	1 00	8 00
Mrs. H. Harrison. M 1. Light lavender.	1 00	8 00
Philadelphia. M 2. Clear pink.	1 00	8 00
Pink Popcorn. M 2. Old-rose of the small Pompon type.	1 00	8 00
Red Doty. M 1. Dark red.	1 00	8 00
R. Marion Hatton. E 2. Bright canary-yellow.	1 00	8 00
Sunny Boy. E 3. A yellow variety of Early Bronze with the same habit.	1 00	8 00
White Doty. M 1. Creamy white.	1 00	8 00
Yellow Doty. M 1. Orange-yellow.	1 00	8 00

Vigorous. Old-rose; very fragrant. Single.		1 50	12 00

Greenhouse Department

OUR GREENHOUSE DEPARTMENT CONSISTS OF APPROXIMATELY 250,000 SQUARE FEET OF GLASS

Azaleas for Growing-On

We believe we are the largest growers of Azaleas in the world, and during the past years have been gratified to see the great increase there has been in the public's liking and acceptance of these plants, flowering, as they do, from Christmas on to Mother's Day, according to the varieties selected.

For those who can grow on their own Azaleas for one summer, potting them up as early as they wish, we have splendid, bushy, young stock in the following varieties suitable for this purpose.

Large-flowered Belgian Indica Azaleas

Blushing Bride. Large; double; shell-pink.

Eclaireur. Deep crimson.

Empress of India. Large; semi-double; rosy salmon.

Jean Haerens. Very double; rosy carmine.

***Mme. Petrick.** Large; double; bright rose.

Mme. Van der Cruysen. Semi-double; deep rose.

Mrs. Fred Sanders. Early; double; dark rose.

Niobe. Large; double; white.

Prof. Wolters. Large; single; pink with darker center; fringed.

Raphael. Large; double; white.

Simon Mardner. Large; double; bright red.

Triomphe. Vivid double red.

Vervæneana. Large; double; salmon-rose, light border.

Varieties marked with an asterisk (*) can be flowered for Christmas under suitable forcing conditions

Dwarf Own-root Varieties

Suitable for flowering from mid-January; fine for Valentine's Day.

Charles Encke. Single; light pink.

Hexe (Firefly). Semi-double; crimson.

Lorraine. Semi-double; deep rose.

Azalea Rutherfordiana

Glorious new Azaleas produced after twelve years of hybridizing, all covered by Patents Nos. 145, 146 and 147. Characteristics of these Azaleas are:

Exceptional free-flowering qualities.

Keep in good condition longer than any other type of Azaleas.

Come in a much wider color-range than has heretofore been available for Christmas* flowering.

Varieties marked with an asterisk (*) can be flowered for Christmas under suitable forcing conditions

***Alaska.** Early. Large; double; pure white.

***Constance.** Single cerise-pink blooms, frilled and ruffled, borne in immense trusses.

***Dorothy Gish.** Large hose-in-hose flowers of deep salmon with darker blotch. Blooms in trusses; very attractive.

***Delight.** Double; shell-pink, overlaid orange.

***Firelight.** Bright, glowing rich crimson hose-in-hose flowers in large trusses.

Mrs. A. W. Muller. Double bright rose-pink flowers produced in large trusses.

Orange Queen. Double orange-salmon flowers in clusters. Beautiful color and excellent grower.

***Orange King.** Double orange-red flowers produced in large trusses.

***Pink Ruffles.** Bright rose-pink hose-in-hose flowers produced in large trusses.

***Salmon Glow.** Bright salmon, semi-double flowers in trusses.

Snow Queen. Large; double; pure white.

In addition to the above list of tender varieties, we also have a complete list of Kurume and Japanese Evergreen kinds.

We shall be glad to send samples and submit prices on receipt of your list of requirements.

These are nice, bushy, heavy plants, cut back several times, not thin stock which has been forced to grow in high temperatures.

Greenhouse and Decorative Plants

All Certified Stock.—We ship in paper pots wherever possible to cut down transportation charges. Per 10 Per 100

ACORUS communis.

Common Acorus

Dwarf, grassy tufts—intensely dark green. Hardy. An oddity for terrariums or Japanese gardens.

2 $\frac{1}{4}$ -in. pots.....	\$1 75	\$15 00
3-in. pots.....	3 00	25 00
4-in. pots.....	4 00	35 00

AESCHYNANTHUS Lobbiana.

(Trichosporum Lobbianum)

A slow-growing, tropical trailing plant with fleshy leaves. Brilliant scarlet flowers, shaped like small pipe-stems. Ideal for hanging-baskets. Quite scarce.

Strong plants, 2 $\frac{1}{4}$ -in. pots.....	2 00	18 00
Strong plants, 3-in. pots.....	3 00	25 00

AGAPANTHUS umbellatus.

African Lily

An unusually fine ornamental plant. Large clusters of brilliant, sky-blue flowers appear in July and August. Entirely hardy outdoors south of Washington, D. C.

Strong plants, 5 $\frac{1}{2}$ -in. pots.....	4 50	40 00
Strong plants, 6-in. pots.....	5 50	50 00
Specimens in 10-in. tubs	\$3.00 each.	25 00

AMARYLLIS Hybrids.

Giant, Round-petaled Red

A specially selected variety originated by us. Great care is given to selecting only the best. Bulb-lets from proven stock are pot-grown for early forcing. Amazing flowers—deep red overlaid with a velour sheen borne on long stems. Commands attention with its showy blooms from January to Easter-time. Semi-dormant stock shipped October to March. Pot-grown.....

5 00	40 00
------	-------

ANTHERICUM picturatum.

St. Bernard's Lily

Long, narrow, green foliage with creamy white stripe long the edges. For window-boxes, or as an individual plant in a sun-parlor. Easy of culture.

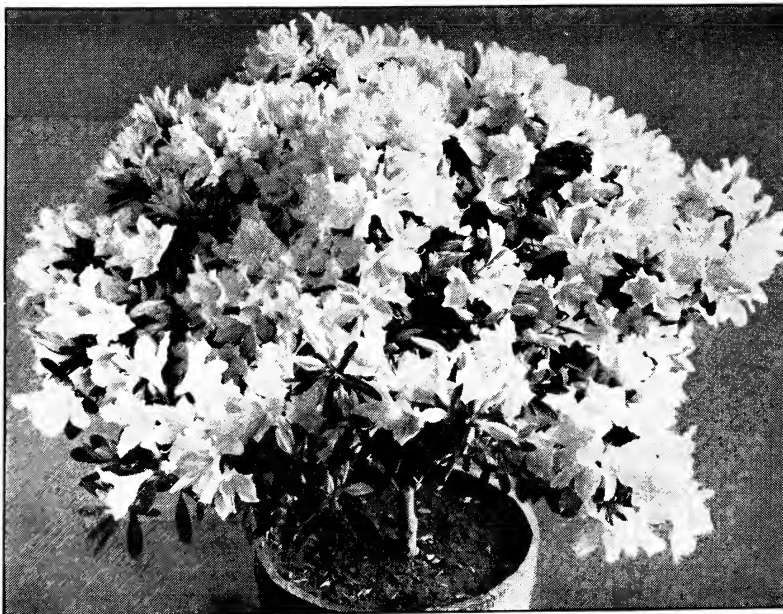

4 $\frac{1}{2}$ -in. pots.....	4 50
5 $\frac{1}{2}$ -in. pots.....	5 50

ARALIA Sieboldi.

Siebold's Fatsia

A decorative, subtropical plant with shiny, green leaves that resemble the castor-oil plant. These leaves look somewhat like an outstretched hand, giving a unique effect. Long-lived. A popular plant in America and abroad.

4-in. pots.....	6 00	50 00
5-in. pots.....	8 50	75 00

Azalea Rutherfordiana

Araucaria excelsa

ARAUCARIA excelsa. Per 10 Per 100
Norfolk Island Pine

Lively, attractive, light green foliage, usually two-toned. The light new growth blends harmoniously with older foliage. A symmetrical, tree-like house-plant, delightfully graceful. Can be trimmed as a Christmas tree for table use.

4-in. pots, ready for repotting.....	\$8 00	\$75 00

VITIS (Cissus) rhombifolia.

Japanese or Grape Ivy

Graceful, dainty trailing vine with dark, glossy green leaves. Grows equally well in soil or water. Superior to ivy in many respects.

Strong plants from 3-in. pots.	2 00	15 00
Strong plants from 4-in. pots.	3 50	30 00

Greenhouse Grapes—Specialties

in 9-inch pots for forcing. Strong fruiting canes

The half-dozen varieties offered are the very best of the Forcing Grapes and our plants are from selected strains. Well-developed root systems assure strong growth and early fruiting.

BARBAROSSA. A late variety producing heavy bunches of large, black, roundish oval berries. A very attractive show Grape.

BLACK HAMBURG. Very large, roundish oval berries; flesh very rich and juicy. One of the best varieties in cultivation.

FOSTER'S SEEDLING. Berries large, white, roundish oval; very sweet and richly flavored.

GROS COLMAN. Very large bunches of round, black berries of monstrous size; flesh juicy and sweet. Habit vigorous and robust.

MADRESFIELD COURT. A superb Grape with very large black berries of rich Muscat flavor when ripe.

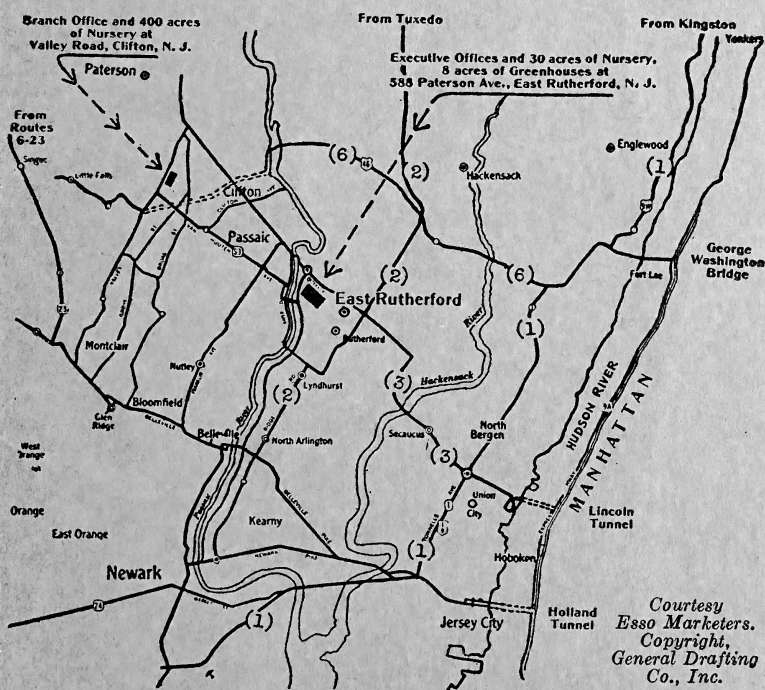

MUSCAT OF ALEXANDRIA. Berries large and oval, pale amber when ripe; flesh firm and rich.

Price: \$4.50 each, \$42 per 10

Not less than 5 of any one variety sold at the 10 rate

**ALL ROADS—AND GOOD ROADS, TOO—LEAD TO
BOBBINK & ATKINS NURSERIES**

10 Miles—30 Minutes—From the Heart of New York City

How to reach our Nurseries. Visitors are always welcome. Easily reached by following Routes Nos. 1, 6 and 2 from the George Washington Bridge. Use Routes Nos. 1 and 3 from the Holland and Lincoln Tunnels. Inter-city Transportation Company buses from the Mid-Town Bus Terminal, 143 West 43d St. (east of Broadway) (also stops at west end of Penn Station) to E. Rutherford whence frequent local buses pass our office. The Carlton Hill Station of the Erie Railroad from New York City is a five-minute walk from our office.

Important Notice

●

We are going to clear land for a new real estate development and further highway construction on our Clifton-Richfield acreage. Many of the choice trees and shrubs thereon which are listed in this Catalogue will be offered at reduced rates by special arrangements.

●

It will pay all Nurserymen and Landscape Planters to visit this present nursery acreage during spring 1941. Substantial price reductions will be made if you arrange to dig the material and do your own trucking.

●

Write, Wire, or Telephone Rutherford 2-0700 or Sherwood 2-2284 before coming so we can arrange to give you the best reception and service.

●
